USO E CONSERVAÇÃO DOS MÓVEIS

LIMPEZA

Utilizar pano limpo e macio, umedecido com água, que deverá ser aplicado no mesmo sentido do veio da madeira. Logo após, secar o móvel. Evitar utilizar lustramóveis, solventes, acetona, produtos abrasivos como sapólio, pois eles danificam o móvel.

Por se tratar de matéria-prima natural, em algumas peças podem ocorrer desigualdades na tonalidade do produto devido às diferenças entre os veios da madeira.

- Evitar a exposição do produto a forte intensidade de luz, que pode acarretar variações nas tonalidades do produto.
- Evitar sobrecarga no produto.
- Verificar sempre se o produto está nivelado ao piso.
- Evitar sentar no móvel com roupa úmida ou molhada.
- Se o produto for molhado, secar com um pano limpo e macio, mantendo em local ventilado até a completa secagem.

- Nunca utilizar cadeiras, poltronas e bancos inclinando e apoiando o móvel somente nos pés traseiros ou dianteiros. Além de perigosa, essa atitude pode ocasionar graves danos ao produto.

FURNITURE USE AND CONSERVATION

Use a soft, clean, damp cloth to wipe in the direction of the wood grain. Dry the piece straight away. Avoid using furniture polish, solvents, acetone, and abrasive products such as cleaning paste as they can damage the item.

- Keep the products in well-ventilated spaces and never store them in plastic wrappers.
- Do not use the furniture pieces in outdoor areas where they can be exposed to moisture, rain, and direct sunlight.
- Never tilt chairs, armchairs, and stools, supporting them only on their front or hind feet. Doing so is dangerous and may severely damage the product.
